# Obama

## Take a short trip from Kyoto in a hybrid rental car

A 110 minute drive from Kyoto, Obama was once a bustling port town that received trading ships from the mainland as well as other distant ports of Japan. Today it retains much of its unique historical character, and the friendly local people continue to enjoy the clean water flowing from the surrounding mountains, the tranquil sea of Wakasa Bay, and the fresh air. Why not visit this charming town, and travel independently and at your own pace, in an environmentally-friendly Toyota hybrid car, equipped with an English navigation system?

Take in the soothing qualities of rural Japan's mountains, waterfalls, and sea, far removed from the stress of urban areas. This is a perfect destination to stay in a comfortable traditional inn with a rich history, and enjoy fresh seafood and the distinct charm of the Japanese seaside.

**O**n the way, enjoy a cup of fresh roasted coffee in a restored farmhouse, in a quaint former post town that retains its Edo Period charm. Depending on the season, you can drive along the lush green of the rice paddies, and when you arrive at Obama, you can visit some of the splendid temples and shrines on a rented e-bike, or experience adding the finishing touches to a pair of lacquered chopsticks - a specialty of Obama. In summer, you can go swimming or sea kayaking at the beautiful, Blue Flag-certified Wada Beach. This plan also includes time to explore the Historic District with a local guide who knows the area well.

**A** very special dinner featuring the region's famous cuisine is prepared with all local ingredients. For lunch, sushi is the best way to enjoy Obama's fresh fish. Your accommodation is a traditional machiya townhouse that has been renovated to prioritize comfort, while retaining its traditional character and aesthetic.

**T**ake a short departure from the city and create an unforgettable trip for just two people, where you can enjoy the authentic charm of rural Japan.

## KYOTO - OBAMA - KYOTO
